📍 Tiruchirappalli, Tamil Nadu

SUMMARY

AI & Machine Learning undergraduate with a strong interest in Data Analytics, Business Intelligence, and Machine Learning. Skilled in Power BI, Python, Excel, DAX, and Power Query with hands-on experience in developing interactive dashboards and data-driven solutions through academic projects and internships. Passionate about transforming data into actionable insights.

EDUCATION

B. Tech Artificial Intelligence and Machine Learning

2023-2027

Dhanalakshmi Srinivasan University
Tiruchirappalli

Jegan Matha Matriculation Higher Secondary School

2023

Tiruchirappalli

SKILLS

- **Programming & Core:** Python, Machine Learning, Data Analysis
- **Web Development:** HTML, CSS, JavaScript, Flask
- **Libraries:** NumPy, Pandas, Matplotlib
- **Tools & Platforms:** Microsoft Excel, Power BI, DAX, Power Query, GitHub

PROJECTS

CampusIQ – AI-Powered Placement Intelligence System | Power BI

- Built an interactive Power BI dashboard to analyze placement data using KPIs, charts, and slicers.
- Used Power Query for data transformation and DAX for KPI calculations and measures.
- Designed interactive visualizations to monitor Total Students, Placement Rate, Average/Highest Package, and company-wise placements.

AI-Based Automated Multi-Slot Timetable Generation System with Constraint Optimization | HTML, CSS, JavaScript, Python (Flask)

- Developed an AI-based timetable generation system using constraint optimization techniques.
- Built a Flask-based web application to generate conflict-free academic timetables.
- Presented the project at academic conferences, demonstrating its practical implementation.

Sales Analytics Dashboard | Power BI

- Developed an interactive Power BI dashboard to analyze sales, profit, and quantity across categories and regions.
- Created visualizations to identify business trends and performance.
- Implemented interactive filters and slicers for dynamic data analysis.

INTERNSHIP

Data Analytics Intern | Logirtha Technologies, Thanjavur

Dec 15, 2025 – Dec 29, 2025

- Analyzed datasets using Excel and Python to derive meaningful insights.
- Performed data cleaning, preprocessing, and visualization for data-driven decision-making.
- Strengthened analytical, problem-solving, and data interpretation skills.

CERTIFICATIONS

Introduction to Large Language Models - IBM SkillsBuild(2026)

- Learned the fundamentals of Large Language Models (LLMs), Generative AI Concepts, prompt engineering, and real-world AI applications.

HP LIFE – Data Science & Analytics (2026)

- Completed training in data science fundamentals, analytics methodologies, and business Applications

Responsible AI: Applying AI Principles with Google Cloud – Simplilearn (2026)

- Learned responsible AI principles, ethics, fairness, and AI governance using Google Cloud.

Introduction to Data Analytics – Simplilearn SkillUp (2026)

- Gained foundational knowledge of data analytics, data interpretation, and analytical techniques.

Python Programming Workshop – IIT Madras

- Learned Python programming fundamentals and data handling concepts

AI/ML Workshop – IIT Madras

- Explored machine learning fundamentals and real-world AI applications.
